Dear Parents and Carers

Re: Increasing Mobile Data Allowance

I am writing to make you aware of an opportunity to increase the amount of data your child has on their smartphone if you are eligible.

The Government are working with mobile phone companies to give free mobile data to students using their phone to work. The scheme is open to children and young people who:

- 1) don't have access to a fixed broadband connection
- 2) cannot afford the additional data needed to access educational resources or social care services
- 3) have access to a mobile device that uses a participating network (EE, O2, Sky, Smarty, Tesco, Three, Virgin, Vodafone)

To access this offer, parents and carers need to apply through the college by completing the online form below:

▲ <https://forms.gle/zRFyVuYGF9VszF549>

Unfortunately, you cannot apply directly to your network provider.

If you have any problems accessing the form or queries regarding this opportunity, please contact Mrs Amanda Woodcock at awoodcock@thespirescollege.com.

Yours sincerely

Mr P Sutherland
Vice Principal
